RPM

***PREMIER MAKES REMOTE PATIENT MONITORING (RPM)
SIMPLE AND COST EFFECTIVE***

RPM can empower patients to actively participate in their healthcare choices. ¹

Engage patients in RPM to reduce hospital stays, avoid readmissions, and better manage patients with chronic diseases. In recent years, CMS has expanded their coverage for RPM services. Premier has carefully selected a reputable company with the best service (to both patients and providers) and technology available. We are now actively contracting providers to participate in our RPM program – enroll anytime!

Earn more revenue for your practice through 2 pathways:

Increased shared savings earnings from improved patient compliance and outcomes.

The fee-for-service billing for RPM service codes should cover administrative costs for facilitating the program in partnership with the vendor.

To learn more about RPM, please contact your Premier PBE.

Address: 2340 East Trinity Mills Road, Carrollton, TX 75006
